ANN ARBOR, Mich. — Organizers of a new survey say many Michigan's local governments worked to boost participation in the **2010 census** by actively encouraging residents to respond to the 10-question form.

Results of the Michigan Public Policy Survey of officials from about 1,300 jurisdictions released Thursday found 54 percent reported working actively to promote the census. About 70 percent of the largest ones reported taking such actions.

The survey was conducted this spring by the Center for Local, State, and Urban Policy at the **University of Michigan** in partnership with the Michigan Association of Counties, the Michigan Municipal League and the Michigan Townships
