Hello. My name is ___________________ and I’m a student at Muhlenberg College. We are conducting a research project regarding environmental issues in the United States. Would you be able to help us by answering a few questions?

Yes....................1
No......................2   (Thank and terminate)
Not sure..........98   (Thank and terminate)
Refused..........99  (Thank and terminate)

Q1. Thank you. Can you please tell me in which year you were born?
(OPEN) ____________________________________________________

Q2. What state do you currently reside in?
(OPEN) ____________________________________________________

Q3. In general how would you describe the overall weather in your area this past winter? Would you say it was:

A LOT warmer than usual................................. 1
SLIGHTLY warmer than usual ......................... 2
SLIGHTLY cooler than usual......................... 3
A LOT cooler than usual.............................. 4
Or about the same as usual?......................... 5
Not sure (Volunteered)................................. 98
Refused (Volunteered)................................. 99

Q4. Which of the following best describes the amount of snow your area received this past winter? My area received:

A LOT more snow than in a usual year............... 1
A LITTLE more snow than in a usual year .......... 2
A LITTLE less snow than in a usual year ............ 3
A LOT less snow than in a usual year ............... 4
About the same amount of snow as a usual year ... 5
Or my area doesn’t receive snow...................... 6
Not sure (Volunteered)................................. 98
Refused (Volunteered)................................. 99
Q5. Next, I would like to ask you a few questions on the issue of global warming. From what you’ve read and heard. Is there solid evidence that the average temperature on earth has been getting warmer over the past four decades?

Yes ..........................................1
No ...........................................2      SKIP TO Q16
Not Sure (Volunteered) ...........98    SKIP TO Q21
Refused (Volunteered) ............99    SKIP TO Q21

Q6. How confident are you that the average temperature on earth is increasing? Are you very confident, fairly confident, not too confident or not confident at all that the average temperature on earth is increasing?

Very confident ................................................... 1
Fairly confident .................................................. 2
Not too confident ............................................... 3
Not confident at all............................................. 4
Not Sure (Volunteered) ...................................... 98
Refused (Volunteered) ....................................... 99

Q7. Is the earth getting warmer because of human activity such as burning fossil fuels, or mostly because of natural patterns in the earth’s environment?

Human activity ................................................... 1
Natural patterns .................................................. 2
A combination (Volunteered) ......................... 3
Not Sure (Volunteered) ...................................... 98
Refused (Volunteered) ....................................... 99

Q8. What is the primary factor that has caused you to believe that temperatures on earth are increasing?

(OPEN)_____________________________________________________________

Q9. How concerned are you about the issue of global warming? Are you very concerned, somewhat concerned, not too concerned, or not concerned at all about the issue of global warming?

Very concerned .................................................. 1
Somewhat concerned........................................... 2
Not too concerned ............................................... 3
Not concerned at all............................................. 4
Not Sure (Volunteered) ...................................... 98
Refused (Volunteered) ....................................... 99
Next I would like to read you a list of factors that may or may not have had an effect on your view that the earth is getting warmer. For each factor that I mention please indicate if it has had a very large, somewhat large, not too large, or no effect on your view that the earth is getting warmer. First,

Q23: If human activity leads to global warming then humans will also be able to find ways to reduce temperatures on the planet through atmospheric engineering methods.

Q24: Instead of trying to stop global warming from occurring we should focus on adapting to a warmer climate.

Q25: Humans will be able to adapt to a hotter climate without making significant changes to their lifestyles.

Q26: What comes to mind when you hear or read the word "electric car"?
